Price	THB 13,000
inc.VAT	

Type of muffler	LEGAMAX Muffler
Main material	SUS304
Diameter of tip	φ115
Diameter of pipe	φ60
Remarks	

-The development concept is "Stylish". We adapted the big size diameter tip for an impact that does not to be outdone by the vehicle style. And 2 layers tip design make not just bigger diameter size but also has "Elegant" design.
 -We have fixated on the straight structure. So we made it straight structure layout design, not the baffle structure to comply for F-CON. And with the small silencer, it cool sound even for the straight structure.
